

## PRODUCT OVERVIEW

<b>Species</b>	Quercus robur (French Oak)
<b>Origin</b>	Single-Origin Burgundy, France
<b>Certification</b>	PEFC certified sustainable forestry
<b>Construction</b>	100% solid French Oak—never laminated, never engineered
<b>Supply</b>	Supplied rough-sawn for custom fabrication
<b>Grade</b>	French Grading System: <ul style="list-style-type: none"> <li>• QBA+ — High Select</li> <li>• QBA — Standard Appearance</li> <li>• QB1 — Feature Grade (more knots, character)</li> </ul>
<b>Moister Content</b>	8-12% kiln-dried
<b>Profile</b>	Supplied pre-sliced at mill
<b>Surface</b>	Rough-sawn; thickness and face to be dressed by fabricator
<b>Supply Unit</b>	Per slab, or per LM/m <sup>3</sup> for boules
<b>Minimum Order</b>	1.0 m <sup>3</sup> (individual slabs can be quoted for high-value pieces)

## INTENDED USE

- One-piece table tops and benches
- Live edge furniture and feature pieces
- Wide boards for specialty joinery
- Projects requiring full boule selection

## INSTALLATION & FABRICATION

- Interior use only
- Professional fabrication required
- Allow for acclimatisation and natural movement of solid timber
- Natural edges preserved for live edge applications
- All faces must be sealed with suitable finish system
- Maintain with compatible maintenance oil or refresher

## STANDARD SIZES

Thickness (mm)	Width (mm)*	Length (m)	Supply
54, 80, 100	Up to 750	Typically 4.5	Per slab or per boule

Note: Width varies by tree. Individual slabs in stock; whole boules can be ordered direct from mill. Boules supplied pre-sliced at mill. ChêneOak does not mill boules to final dimension—fabrication by specialist required.
